Subject: Cleanup the Willamette for the future of our planet

I am an employee of one of the businesses affected and I believe we need a plan that protects the river, wildlife, and the future ecology. We need to leave a legacy behind after we're gone, we need to think of the future, not the future of our jobs the future of something more important, our planet. We need a cleaner Willamette river, period.

Cleaning the Willamette I believe is much more important than mine, or anyone else's job.

We must leave something for future generations.

We must clean up this site not just for us but for our children and our children's children.

The EPA plan, from what I hear, will be fantastic for the river and wildlife. That makes me happy. That's what Portland and Oregon need.

Thank you for considering my concerns. I hope you will agree that we need to do all we can to support Portland's environment.

Sincerely,

(b) (6)
